Dinosaurs

Trace and rewrite

Dinosaurs are a great part of our
world history, and even though
we may never fully understand
them, it rekindles our imagination.

Dinosaurs means "terrible lizard".

Caves

Trace the passage

Caves often contain some of the best kept secret of ancient life. They run through the rock sometimes opening out into huge chambers. Caves are dark places and some are only large enough to contain one person. Caves are found throughout the world but only a portion of them

have been explored by the cavers. Some times underground rivers, waterfalls or hidden lakes may be found in the caves.
