# Animal World

1

chapter

There are different kinds of animals. Each animal has a name. Can you recognise the animals given below? Use help if required. Discuss with your partner those animals that live in water and those that live on land.

## Help

- FISH • CAT • LIZARD
- COCKROACH • TORTOISE
- GOAT • ELEPHANT
- ZEBRA • DOG • LION
- SNAIL • PARROT • OWL
- CROCODILE

## Do You Know ?

The Giraffe is the tallest animal. It has a very long neck. However, it has only seven bones in its neck, the same number as you have.

# Animal Sounds

Different animals make different sound. You can identify the animal from the sound it makes. I identify the animal and complete the word. Match the animal to the sound it makes. You may refer the help desk if required.
